

WIN Rising Star Award in Nanoscience and Nanotechnology

– Call for Submissions –

The Waterloo Institute for Nanotechnology (WIN) at the University of Waterloo is pleased to announce the call for submission for the WIN Rising Star Award in Nanoscience and Nanotechnology. The award recipient will receive \$10,000 (CAD) as an honorarium at the International Symposium on Frontiers of Nanoscience and Nanotechnology on June 4, 2019.

Eligibility:

A full-time faculty member who has received their PhD in science or engineering in 2009 or later. The 2019 nomination is open to individuals whose research interest aligns with WIN's research area – Smart and Functional Materials. Details about this thematic area are available at <https://bit.ly/2U8xCwm>.

Award:

Along with the honorarium for \$10,000 (CAD), the award recipient will present a featured research seminar at the International Symposium. The award recipient will spend two days at WIN interacting with leading faculty members and graduate students.

Submission:

Deadline for submissions is **April 15, 2019 at 17:00**, via email to skmitra@uwaterloo.ca. Please visit the WIN website for more details: www.nano.uwaterloo.ca.

Winners:

2018 WIN Rising Star Award Recipient:

“WIN successfully makes the connection between fundamental science and applications that solve a societal challenge”

- Bruno Ehrler, Group Leader at Institute AMOLF
