

INVITATION – SPECIAL ISSUE 2024  
SUSTAINABILITY AND ENVIRONMENTAL CHEMISTRY

Dear Colleagues,

The Química Nova is pleased to announce the launch of a special and impactful series of issues, and we would like to extend an invitation to you to contribute to our upcoming special issue on "Sustainability and Environmental Chemistry." Publishing in a special edition generally attracts more visibility and generates higher citations, as experts in our field are eager to read about specific topics.

For the 2024 edition, we are privileged to have Cassiana C. Montagner, Giovanna Machado, and Marco Tadeu Grassi as the distinguished Editors for this thematic focus. Their expertise and dedication ensure that this issue will delve into the latest developments and research in the field of Sustainability and Environmental Chemistry.

The issue in question is a current and steadily growing area of interest in the country, presenting an excellent opportunity to highlight interesting works from researchers in various universities. Thus, we believe that your valuable contributions and insights could significantly enhance the quality and breadth of this special issue and we are confident that your expertise would greatly enrich the content. Therefore, we invite the community to participate in this incredible and challenging special installment.

However, there are some key details for your consideration to be clarify in advance: (1) The deadline for submission is March 18, 2024. We will accept submissions of original articles, reviews (within established norms), technical notes, education, and general topics. The expected release date for the special edition is the second semester of 2024. (2) It is crucial to remember that the invitation does not guarantee acceptance for publication. All articles in this special edition will be reviewed by at least two independent experts to ensure the quality, originality, and novelty of the published work. (3) As a researcher who has previously published in Química Nova, you are familiar with our publication process. It is common knowledge that Química Nova adopts the APC (article-processing charge); therefore, a publication fee will also be charged if the article is accepted.

To submit your work, please visit our ScholarOne Platform and choose the special installment titled "Special Issue: Sustainability and Environmental Chemistry."

We hope you consider contributing to the success of this special edition by submitting an article on this theme. We are confident that your participation will make a significant impact on this special issue, contributing to its success and the advancement of knowledge in this critical area.

Should you have any inquiries or require further information, please do not hesitate to contact us.

We look forward to the possibility of counting on your expertise in this important issue.

Best regards,

Cassiana C. Montagner  
Associate Editor - Química Nova

Giovanna Machado  
Editor-in-Chief - Química Nova

Marco Tadeu Grassi  
Guest Editor
